

STATE OF MICHIGAN
CIRCUIT COURT FOR THE COUNTY OF MACOMB

In re Access to Service Elevators

Administrative Order 2001-1

I. Background

The two service elevators in the Circuit Court building were designed for the secure transport of prisoners to and from courtrooms and secure ingress and egress of judicial personnel. Over time, a large number of persons have begun utilizing the elevators for transport within the building, thus degrading the security of the elevators and their utility for their primary purposes. Therefore, it has become necessary to restrict access to the elevators.

II. Restriction of Access

As of the effective date of this order, the two service elevators in the Circuit Court building are restricted to those who are designed as authorized personnel by the Chief Judge. Anyone who distributes the access code for the elevators to unauthorized personnel may be subject to discipline and/or contempt of court for violation of this order. The access code for the elevators will be changed periodically in order to maintain security.

III. Effective Date

This order shall take effect on **MONDAY MAY 14, 2001**

Peter J. Macerom
Chief Judge

Dated: **MAY 8, 2001**
